

Villa Decius

The Villa Decius Conference Centre is located in the heart of Kraków, on Wola Justowska, close to the Kraków Airport and the Main Market Square.

The Centre organises conferences, training courses, workshops, banquets, integrative events and formal parties (weddings, first Holy Communion parties, baptism parties, anniversaries).

Guests have stylish palace interiors and exceptional green park surroundings at their disposal.

By taking advantage of the services of the Conference Centre, you support artistic and educational programmes of the Villa Decius Association.

Villa Decius

The arcade loggia

The Villa Decius is an exceptional place with a 500-year-long tradition. The historical complex is home to the Villa Decius Association established in 1996, which supports and promotes artistic and literary activity and international cultural and intellectual co-operation.

What lies at the heart of our programmes, is the idea of meetings of representatives of various fields of science and culture, of various nationalities and areas of interest, and of the exchange of thoughts.

The most important long-term projects of the Association include educational programmes for young people from the Visegrád Group and Eastern Europe, artistic events, innovation laboratories, residency programmes for writers, creativity workshops for seniors, creative activities for children and adults, and master classes.

On selected days of the month, the palace & park complex is open to visitors – inhabitants of Kraków and tourists, both adults and children.

We invite you to book visits: zwiedzanie@villa.org.pl
