

Agamemnon

Minister of Culture

A controversial figure with a strong personality and a wealth of experience. Agamemnon is well known and highly regarded for his expertise within the cultural sector. Currently serving as the Minister of Culture, he previously led *Nausica's* cultural organization, for many years. He makes his presence felt strongly and insists on having a distinct opinion on every matter. Other

consortium members constantly feel his breath on their necks and tend to be reserved in his presence.

He has authoritarian tendencies and enjoys being in control, always ready to prove he knows best. Agamemnon often unexpectedly draws the attention of consortium members, trying to involve them in his own initiatives. As a seasoned orator, he is hard to refuse. When he sets his mind on something, he pursues it relentlessly—regardless of the consequences or the personal cost to his collaborators.

On the other hand, his actions and projects always lead to spectacular success.
